A NEW REVOLUTION IN HEAT TRACE SYSTEMS

THE SAFE AND EFFICIENT SELF-REGULATING HEAT TRACE SYSTEM

Introducing T-Links from
Heat Trace Products

**HEAT TRACE
PRODUCTS** LLC

PLUG & PLAY

with T-Links Pre-Terminated Heat Trace System

T-Links Tee

The old traditional way of installing a self-regulating heater system is being replaced with an innovative, safe, and efficient system...T-Links by Heat Trace Products.

T-Links Pre-Terminated Heat Trace System will revolutionize the way self-regulating heater systems are viewed in the industry.

Manufactured using the same reliable 2700 series type cables that have been used for over 30 years.

CAN T-LINKS BE EFFECTIVE & QUICK?

Definitely. The T-Links Pre-Terminated Heat Trace System takes minutes vs. hours to install and no tools are required! No longer is installing a self-regulating heater system time-consuming. Standard lengths available: 5', 10', 20', 50', 100', and 200'. Custom lengths upon request.

WHY CHOOSE T-LINKS?

- Factory connections are fail proof and water tight
- Effortless "T" connections
- Best for high maintenance applications
- Ideal for emergency installations

*Pre-Terminated
T-Links Cable Lengths*

- Ability to step up or step down the wattage when required
- Zero remnant scrap
- LED monitors installed anywhere
- Easy to replace and portable
- Can be combined with conventional heat trace
- Able to be installed under insulation
- Full line of approved accessories available
- Environmentally friendly – recyclable; lower energy consumption; and reusable
- Available in 3, 5, 8 and 10 watts per foot in both 120V and 240V
